General Cleaners

GENERAL PURPOSE CLEANERS

People speak of using acids and blasting to clean masonry & stone, but actually they are destroying masonry. They are removing the first layer of masonry in order to remove the dirt. Instead, the Klenztone® approach to cleaning masonry is to penetrate into the pores and release the dirt from the surface so it can be rinsed off.

Klenztone® Stone Cleaners clean, brighten and preserve extremely dirty masonry surfaces easily and economically... and without harming the surface! Klenztone® is so completely unique that it has been awarded a patent from the United States government. And it's so safe and effective that it's been used to clean hundreds of thousands of terrazzo and marble floors.

SECTION 18. CLEANERS, SEALERS & TREATMENTS

KLENZTONE #1

Designed for the hardest to clean masonry surfaces. It makes old buildings, driveways, sidewalks, building entrances and even transit platforms look like new again. In fact, KLENZTONE #1 cleans grease and oil so effectively, it's ideal for warehouse, factory, garage or your home. Use before applying new sealer.

Use for: Limestone, Sandstone and Concrete.

Coverage: Approximately 150 - 250 sq. ft. per gallon, depending on the porosity of the surface.

Application: Apply undiluted, surface will be ready to rinse in less than 1 hour. Can be left to dry and rinsed off at your convenience.

DS Item #	Size
27015560	Gallon
27015561	5 gallon

KLENZTONE #2

Primarily the granite and marble cleaning formula of KLENZTONE. Whether the object you want to clean is as small as a tombstone or as large as a multi-story building, Klenztone #2 will quickly and easily remove years worth of built up dirt and grime, revealing the natural beauty of stone hidden underneath. **Do not** use klenztone #2 on any type stone that is polished. This formulation could streak or etch the polished surface

Use for: Unpolished Granite, Marble, Field Stone, Stucco and Colored Concrete.

Coverage: Approximately 200 - 300 sq. ft. per gallon, depending on the porosity of the surface.

Application: Apply undiluted, surface will be ready to be rinsed in less than 1 hour.

DS Item #	Size
27015564	Gallon
27015565	5 gallon

General Cleaners

KLENZTONE #3

Klenztone #3 releases dirt & grime without discoloration or damage to the surface, and it can be rinsed with low pressure (200 psi), keeping the surface intact. Klenztone #3 is also used to clean Terrazzo, Travertine & Marble floors that have become dull and dingy after years of stripping and resealing.

Use for: Terrazzo Floors, Travertine Floors, and Marble Floors

Coverage: Approximately 250 - 350 sq. ft. per gallon, depending on the porosity of the surface.

Application: Same as #1 and #2.

DS Item #	Size
27015568	Gallon
27015569	5 gallons

KLENZTONE #4

Makes cleaning many surfaces easy even the most sensitive types of masonry. Almost as rapidly as you can apply it, KLENZTONE #4 loosens the grime that ordinary cleaners can't touch. Then, after rinsing with water, surfaces return to new masonry appearance. The most popular for the stone industry.

Use for: Polished and unpolished stone.

Coverage: Approximately 300 - 500 sq. ft. per gallon, depending on the porosity of the surface.

Application: Apply undiluted, quickly cleans surfaces in 3-5minutes then rinse.

DS Item #	Size
27015572	Gallon
27015573	5 gallons

KLENZTONE #5

Specifically designed with the home owner in mind. It is the easiest to use of all the Klenztone because it can be used on almost all masonry surfaces. From cleaning oil off your driveway to soot off your fireplace and everything in between, Klenztone #5 is your everyday restoration cleaner.

Application: Apply undiluted cleans in 5-10 minutes, depending on density of removal. Then rinse.

DS Item #	Size
27015576	Quart
27015580	Gallon
27015562	5 gallons

CSP® CONCRETE, STONE PREPARER

CSP is used to restore tile floors by removing soap scum and cleaning grout joints. It is also used to remove efflorescence white stains from brick. In addition, CSP is ideal to use before sealing.

DS Item #
27015555

General Cleaners

D/2 BIOLOGICAL SOLUTION

D/2 Biological Solution is a biodegradable, easy to use liquid that removes stains from mold, algae, mildew, lichens and air pollutants. It is effective on marble, granite, limestone, brownstone, travertine, masonry, terra cotta, concrete, stucco, wood and other architectural surfaces including monuments, sculpture and headstones. A contact time of only 10 to 15 minutes followed by scrubbing with a soft nylon or natural bristle brush will loosen most biological and air pollutant staining. D/2 Biological Solution is effective for removing harmful biological and air pollutant staining from many building materials including masonry, marble, granite, limestone, brownstone, travertine, terra cotta, concrete, stucco, wood, canvas and vinyl & aluminum siding.

Features and benefits:

- Fast acting: 10 to 15 minutes contact time for great results
- Biodegradable
- Contains no acids, salts or chlorine
- pH neutral
- Will not etch metals or glass
- Safer to use around plantings
- Is not a hazardous material and requires no special handling or protection
- Use full strength, no in-field mixing required
- Shelf life of 5 years

Why choose D/2 ?

- **Won't deposit harmful residues.** D/2 was developed by conservators who know the damage that can be done by cleaners containing acid or salts. Our products has been specially formulated without these harmful agents. D/2 is pH neutral quaternary ammonium solution with surfactants that help carry surface contaminants away. No other solution is more trusted by architectural and monument conservators.
- **Can be used on a variety of surfaces.** D/2 has been successfully used to remove staining from a variety of surfaces including natural stones such as marble, granite, limestone, sandstone, slate; masonry surfaces such as brick and cast stone; concrete; wood; aluminum and vinyl siding; and canvas.
- **It works !** D/2 has been successfully used to clean millions of buildings and monuments. From the White House to Arlington Cemetery, D/2 is trusted to work and keep on working when results matter.

Also available: 18" Display Rack

DS TECH TIP

MAINTENANCE

Keep your stone and tile looking great by following some simple precautions

Kitchen and Bathroom Counters

Many household foods, beverages, and cosmetics can degrade tile grout and damage stone. Common toiletries like perfume, mouthwash and toothpaste, as well as common foods such as orange juice and soft drinks contains acids and other ingredients that can degrade sealer or damage your stone's surface. Whether you have stone slab counters or stone, ceramic, or porcelain tile counters, using Revitalizer Cleaner & Protector will remove residues from cooking oils, everyday food spills, hairspray and other cosmetics.

Oily Stains

If you know the stain is oil-based (from foods like salad dressing, cooking oils, butter or some cosmetics), use Stone Tech Professional Oil Stain Remover to wick up the stain from deep within the stone.

Stone or Tile Floors

Clean your interior stone and tile floors frequently using a clean, non-treated, dry dust mop, as abrasive particles of sand and dirt can damage natural stone and tile surfaces. Mats or area rugs inside and outside your entrance ways will help minimize damage. Also, be careful when using a vacuum cleaner as the metal or plastic attachments and wheels can scratch the surface. Damp-mop your stone or tile floor with the properly diluted solution of one of the daily DuPont StoneTech Professional stone tile cleaners. Avoid walking on the floor until completely dry, as wet stone and tile floors tend to be slippery!

Bath and Other Wet Areas

Periodic use of StoneTech Professional Revitalizer Cleaner & Protector or Stone & Tile Cleaner will remove any soap scum and hard water deposits. In the bath, or other wet areas, using a squeegee after each use can minimize these common residues.

Industrial & Acid Cleaners

STONE GLO

StoneGlo can be diluted 50/50 with water and is used as an effective acid cleaner to remove tin oxide residue from granite. Safe to use on polished and unpolished surfaces. Simply clean stone with brush and rinse with clear water.

DS Item #	Sizes
27015592	4 L
27015591	20 L

CRYSTAL ACID

Crystal acid is an effective acid cleaner for cleaning dirt and organic stains from unpolished granites. Also available in 50 lbs bag. Usually a large handful in 4 gallons of clean water creates an ideal mixture.

DS Item #	Size
27015547	50 lb bag
27015548	15 lb Pail

RESTORE

For use on: granite, slate, sandstone, ceramic, porcelain tile and grout.

- Make tile and grout look new
- Cleans away hard water deposits, grout haze efflorescence and soap scum.
- Professional strength, acidic formula

Recommended surfaces

Do not use on colored concrete, dyed granite and acid sensitive stones such as marble, limestone and travertine. If unsure if granite is dyed, test first in a small inconspicuous area. If granite shows discoloration up to 24 hours after applying Restore, do not use product.

DS Item #	Size
27015671	Quart

DS TECH TIP

ACID PROTECTION

Always wear protective apparel when working with acid based products. I.E safety glasses and acid proof gloves.

ACID USED

Never add a secondary cleaner to an acid based cleaner. I.E bleach. This will create a potentially deadly gas.

Rust Removers

RUST REMOVER

Formulated specifically to remove rust spots and sap stains on granite. Not for use on polish stone. Rust Remover will also help to take natural spot out of certain types of granite.

DS Item #	Size
27015578	1 L
27015579	4 L
27015710	20 L

TIZ TWO

A very effective granite cleaning acid. Works well for removing board stains. Can be used with crystals on tough stains. Will darken light colored granites if allowed to penetrate.

DS Item #	Size
27015550	Gallon

ALPHA RSR-2000

Quickly remove common rust stains from natural stone surfaces, concrete, brick, terra cotta, Mexican tile, or other hard porous surfaces. This unique product comes as a pre-mixed gel in 14 ounce tubes. The RSR-2000 is specially formulated to work extremely fast and in most cases, will completely remove a rust stain within 5 minutes or less. RSR-2000 works much quicker than most poultices and is substantially easier to use. This highly efficient product is a non-hazardous chemical that is safe to use and will not harm the environment.

DS Item #
27015688

TERUST REMOVER RUST REMOVER POWDER

TeRust Rust Remover powder is designed to remove rust stains out of granite, marble, travertine, limestone, terrazzo, concrete, brick, and sanded grout. TeRust contains a special blend of chelates for removing rust stains from stone. By utilizing the stain process reversal technique, the TeRust Rust Stain Remover powder draws the stain out of the stone.
NOTE: Calcium based stones may etch and require repolishing.

DS Item #	Size
27515469	TeRust Rust Remover Powder 8oz

LIQUID RUST STAIN REMOVER

Water-based professional rust remover. For use on marble (unpolished), stone and granite. Specifically developed to remove every kind of rust residue or stain from the treated surface. Ready-to-use.

Graffiti & Oil Remover

STONE STAIN AWAY

Powdered aerosol stain lifter used by the stone trade

- Removes grease, oil, soil and more
- Removes circles and rings left behind by spray gun
- Made in North America

DS Item #	Size
27015503	16 oz. (454 g)

OIL STAIN REMOVER

For use on: All natural stone such as marble, granite, limestone, travertine, slate, terrazzo and sandstone. Ceramic, porcelain tile and grout.

- Interior use only
- Pulls out deep-set oil stains
- Leaves no residue
- Will not discolor stone
- Easy to use, no messy plastic wrap needed

DS Item #	Sizes
27015668	3 oz. Can

SUPERB

Superb is a concentrated cleaner/degreaser, use full strength for heavily soiled areas of dilute with water accordingly as per instructions and surface type.

DS Item #	Size
27015631	Gallon

TEPOUCH STAIN REMOVER POUCH

By utilizing the stain process reversal technique, the TePouch Stain Pouch draws the stain out of the stone with the ease of a pouch similar to those used in teabags. Designed to remove stains such as oil, grease, wine, tea, coffee, and other organic stains out of granite, marble, travertine, limestone, terrazo, concrete, brick, sanded grout, etc.

DS Item #	Size
27515407	TePouch (3 pieces)

Graffiti & Oil Remover

ELEPHANT SNOT

Effective for use on spray painted graffiti, marker, pen, ink, crayon, shoe polish, lipstick, pencil and most other graffiti marks found on brick, mortar, masonry, cement, concrete, stucco, terrazzo, pavers, porous tile. Natural stone surfaces such as granite, marble, sandstone, rocks, both porous/rough or polished. Also effective on glass, ceramic, porcelain, glazed tiles, and grout.

DS Item #	Description
27015607	Gallon Graffiti Remover
27015608	5 gallons Graffiti Remover

SHADOW MAX

Effective on shadows or ghosting residues that may occur on porous surfaces after using conventional graffiti removers. These include shadows left by spray paint, markers, inks, dyes, shoe polish, and most other shadows left on brick, mortar, masonry, cement, concrete, stucco, terrazzo, pavers, fieldstone, porous tile. Natural stone surfaces such as granite, marble, sandstone, rocks, both porous/rough or polished. Also effective on ceramic or glazed tiles, and grout.

DS Item #	Description
27015609	Qt Shadow Max
27015610	Gallon Shadow Max
27015611	5 gallons Shadow Max

SHIELD MAX

An anti-graffiti sacrificial coating for use on porous surfaces such as brick, concrete, cement, stone, stucco, etc. The recommended method of application is a sprayer (pump-up garden, etc.) or it can be rolled or painted on. It is invisible, no odor formula, nontoxic. SHIELD MAX is dry in minutes, and fully cured in hours. When graffiti is sprayed or marked on a coated surface, just spray the affected area with 1900 F pressurized hot water to remove the coating. The offensive graffiti comes off with the coating. The surface is cleaned without using any chemicals or any hand scrubbing. Recoat the area involved. NOT RECOMMENDED for walking surfaces. Protect sidewalks when applying to wall so no spray covers the walking surfaces.

DS Item #	Description
27015612	Qt Shield Max
27015613	Gallon Shield Max
27015615	5 gallons Shield Max

Paint & Coating Remover

COATING REMOVER

This product is an extremely effective and easy to use stripper, which is ideal to use in almost any application.

Coating Remover is a molecule expanding formula, so it works on virtually all coatings, including polyurethane and epoxy formulations. However, Coating Remover has a low volatility, so instead of evaporating rapidly, it remains on surfaces, working and softening. Coating Remover removes more paint in fewer applications than methylene chloride containing paint strippers, and because it is water-soluble and biodegradable, it cleans easily and is environmentally friendly.

Before using Coating Remover to remove layers of pain from this brick building.

Coating Remover was used to remove layers of paint from this building exposing the original brick underneath.

DS Item #	Size
27015546	Gallon

DBX SAFETY PAINT STRIPPER AND SEALER REMOVER

DBX is a non-hazardous, water-soluble paint stripping solution, which effectively softens coatings by expanding the molecules so that coating can be removed easily. It will not burn the person applying it. DBX works on conventional water-based and solvent-based paints, varnishes and sealers, as well as urethane and epoxy formulations.

Despite the fact DBX contains no highly toxic solvents or caustics, it retains benefits associated with each. DBX is a molecule expanding formula, so it works on virtually all types of coatings and sealers. DBX is also long lasting, so, like caustics, it is able to remove multiple layers of built up coatings without rapidly evaporating and losing its strength

DS Item #	Size
27015630	Gallon

HEAVY DUTY COATING STRIPPER

Suitable for all natural stone surfaces including slate, marble, and saltillo. Not intended for use on surfaces other than stone & masonry. Professional strength formula. Removes tough coatings, lacquers, varnishes, and epoxy grout haze. Low odor and non-flammable. Easy to use, water-based formula.

DS Item #	Size
27015694	Gallon

Sealers

BULLETPROOF

For use on: All natural stone such as marble, granite, limestone, travertine, and sandstone. **Best suited for the most porous stone surfaces.**

- Maximum protection against most stains
- Advanced penetrating microbond protection
- Preserves natural look
- Interior use

27015663	5 gallons

DS TECH TIP

PROTECT YOUR NATURAL STONE

People often assume that natural stone is "stain-proof", however all stone is porous to some degree. If not properly treated with a protective sealer, water, oils and other liquids can easily penetrate the stone, leaving behind unsightly stains and damage the stone. The good news is that once treated with a protective sealer, natural stone is ready for carefree, everyday use.

Sealers

PROSEAL

Protects granite against practically all potential kitchen stain causing items: coffee, wine, oil, mustard, ketchup, soda, etc. Proseal also works well with polished, honed, brushed, matte, finishes. Proseal protects the stone from oil and water stains too. It does not change the natural colors of the stone and allows the stone to breathe without leaving a film on the surface. The protection will last up to 4-5 years if the product is applied correctly on the surface and areas that are not under direct wear and use. Indoor/Outdoor.

DS Item #	Sizes
27515583	Proseal 250 mL
27515584	Proseal 1 L
27515585	Proseal 5 L

HYDREX

A penetrating sealer that prevents liquids (stains) from penetrating into the material through its micro-porosities. It allows the stone to breathe to maintain its natural characteristics. It is especially effective on polished granite and polished marbles. It does not change the color of the stone. Hydrex Sealer operates on the surface of materials. Indoor/Outdoor.

DS Item #	Sizes
27515573	Hydrex 250 mL
27515513	Hydrex 1 L
27515574	Hydrex 5 L

THE BEST WAY TO PROTECT YOUR CUSTOMER'S INVESTMENT

Countertops are under daily assault from regular household stains. A simple red wine spill or a drop of olive oil can permanently stain granite or marble. However, treated properly your investment will last a lifetime.

DuPont, the leader in stain protection technology, has partnered with Protect Plus Surfaces to create *DuPont StoneTech Professional Warranty*. Your countertops will be treated with *DuPont StoneTech BulletProof Sealer*, a revolutionary premium sealer which DuPont believes to be the highest performing sealer available today. It offers advanced penetrating microbond protection and makes cleaning the stone easier. The BulletProof Sealer offers your natural stone project an invisible layer of power protection.

- Repels common household stains, including coffee, red wine, ketchup, mustard, cooking oil, soy sauce and common household food and beverages
- Maximum protection against the toughest oil and water based stains with our advanced penetrating microbond protection.

In addition to protecting countertops against stains, BulletProof Sealer is water-based helping you keep the environment - and your environment- free of solvent-based chemicals. It is available only through authorized distributors and dealers.

DuPont StoneTech Professional Warranty includes one of the industry's best warranties:

- 25-year, fully transferable residential countertop warranty
- 15-year commercial and industrial countertop warranty
- Guarantees stain protection from common household food and beverages; however etching is not covered
- Covers all granite, marble and quartzite options for countertops
- Covers replacement labor and materials
- 1-year outdoor countertop warranty on selected granite options
- Warranty transfers with the title of the property; no limitations

DuPont StoneTech Sealer Installers are certified professionals, giving consumers absolute peace of mind.

Included in the *DuPont StoneTech Professional Warranty* is a care kit containing *DuPont StoneTech Bullet Proof Sealer and Revitalizer Cleaner & Protector*.

Enhancers

AGER

Suitable for aging all types of marbles, travertines, stones, granites and agglomerates. Used to obtain a “wet” effect both for indoor and outdoor application. We suggest to apply on surfaces flamed, rough or sanded. Ager is also suitable to protect surfaces against oil and water. The product does not change color when exposed to the sun.

DS Item #	Sizes
27515446	250 ml
27515538	1 L
27515549	5 L

TIGER AGER

We suggest the application of Ager Tiger on the edge of resined granites, particularly exotic stones, when it is necessary to match the color between the top, treated with resin, and the untreated edge. It is also suitable for ageing marbles, travertine's, stones, granites, and agglomerates when the surface is very porous. It is also a fantastic sealer against oil, graffiti, and household stains.

DS Item #	Sizes
Call us	250 ml
27515543	1 L
27515419	5 L

AGER REMOVER

Designed to remove the excess of Ager or Ager Tiger left on the surface by over-application or by allowing Ager or Tiger Ager to dry on the surface.

DS Item #	Sizes
27515449	Ager Remover 1L

QUARTZ TONER

A surface treatment that can be used to enhance Quartz, Engineered, and agglomerate stones. Works excellent for matching the edge of the stone with the surface polish. May be applied on polished, flamed, rough, sanded, honed, and brushed finishes. The product does not change color when exposed to the sun. Quartz Toner works as both a stone color enhancer AND a premium grade high quality sealer. Indoor/Outdoor.

DS Item #	Sizes

27515448	Quartz Toner 1L

PECTRO

PECTRO is applied to polished granite to hide, disguise, or eliminate “webbing” and micro fissures. PECTRO BLACK is designed to work on polished dark granite specifically. Drying time: 5 minutes

DS Item #	Color	Sizes
27515533	Clear	1 L
27515534	Black	1 L

PETROLUX

Recommended for polished dark granites. Used to darken the surface and eliminate superficial micro-porosities and web-cracks. Also used to increase the color and the polish effect. Amount of change depends on the granite. Easy to apply and remove, recommended for automated waxing lines. Petrolux is not designed as a sealer.

DS Item #	Sizes
27515536	1 L
27515544	200 L

DS TECH TIP

Ager will also solve the problem of color matching between a polished surface previously resined and the lighter colored polished edge of the same material.

Enhancers

UNIBLACK 1

UNIBLACK 1 is a very strong, concentrated black color enhancer designed specifically to eliminate the defects of black granite. Its application darkens the surface of the material and makes it more unified in color and consistency. Quick drying. Maintain the rich color by applying UNIBLACK 2.

UNIBLACK 2

UNIBLACK 2 is a formulated black liquid wax used to increase the black effect on polished, brushed and smooth surfaces. The UNIBLACK2 increases the black effect without increasing the gloss. The product can be used on automatic waxing machines or manually. Recommended for restoring old materials which have lost their blackness.

Step 1

27515540	1 L

Step 2

DS Item #	Sizes
27515541	1 L

TEWAX

Used to increase the shine in onyxes, marble, natural stones, granite, agglomerates and terrazzo. It also can brighten up stones that have lost their shine. Cera Tewax is the result of pure and white waxes, dissolved through solvents. It allows high penetration levels on treated material leading to a long-lasting effect.

PAMIR

A paraffin based wax used in stone fabrication. Great for touch-ups on marble or granite and protects countertops, tabletops, vanity tops and back splashes.

DS Item #	Colors
27515515	Clear
27515516	Black

DS Item #	Colors
22514415	Pamir clear / white stone wax 1L
25514416	Pamir black stone wax 1L

TELUX

Telux is a self polish varnish used to create a polished effect to both smooth and raw materials such as marble, granite, onyx, and agglomerates. Telux forms a hard anti-scratch film on the surface that is extremely durable. It may be used on both countertops and floor applications. It is UV stable and does not yellow over time. It may be used for both indoor and outdoor applications.

JET

JET is a liquid Varnish. Apply to a non polished surface that was missed during fabrication or too hard to reach or polish. The varnish forms a film or coating on the surface that creates a polished look. Completely dry in 15 minutes. Cannot be walked on. Great for jobsite touchups.

Pressure Washers

SECTION 18. CLEANERS, SEALERS & TREATMENTS

JET2500

- Commercial
- Pressure: 2500 psi
- Flow rate: 2.7 gpm
- Motor/Engine type: Gas, Honda GC160, 5HP
- Pump: Comet AXD, axial
- Drive: direct
- Revolution: 3600 rpm
- Soap injection is included
- Hose of 25 ft.
- Wand: single of 36 in.
- Nozzle 4
- 78 lb (approximate)
- Warranty: 5 years limited

LP3545G

- Industrial
- Pressure: 3500 psi
- Flow rate: 4.5 gpm
- Motor/Engine type: Gas, Honda GX390, 13HP with oil alert
- Pump: Comet FW, plunger
- Drive: belt drive
- Revolution: 1350 rpm
- Soap injection is included with 4 liter soap jar
- Hose of 50 ft.
- Wand: single of 36 in.
- Nozzle 4
- 218 lb (approximate)
- Warranty: 5 years limited

S4053GH

- Industrial
- Pressure: 4000 psi
- Flow rate: 5.3 gpm
- Motor/Engine type: Gas, Honda 20HP, electric start, oil alert
- Pump: Comet HW, plunger
- Drive: belt drive
- Burner: Oil, 12 VDC
- Revolution: 1750 rpm
- Coil: Upright 1/2 in steel coil schedule 80
- Soap injection is included
- Hose of 50 ft.
- Wand: single of 48 in.
- Nozzle 4
- 840 lb (approximate)
- Warranty: 5 years limited
